

Computer Studies, Chapter 13 – Other Useful Free Tools and Services

Exam Oriented MCQs, 13.1 Introduction

Q-1: Which of the following techniques allow us to reduce the amount of memory and disk space required to store the information?
OR

Which of the following technique is used for reducing the storage requirements of computer files and directory structures?

- | | | | |
|-----------------|------------------|---------------------|---------------|
| A. Polymorphism | B. Copy and Move | C. Data compression | D. Repetition |
|-----------------|------------------|---------------------|---------------|

Q-2: Which tool is a versatile multimedia tool?

- | | | | |
|------------------|------------------|---------------------|-----------------|
| A. R environment | B. Rational Plan | C. VLC media player | D. All A, B & C |
|------------------|------------------|---------------------|-----------------|

Q-3: Which tool is an online service providing, maps of different areas?

- | | | | |
|----------------|------------------|---------------|------------------|
| A. Google Maps | B. Character Map | C. Both A & B | D. Rational Plan |
|----------------|------------------|---------------|------------------|

Q-4: Which tool will allow us to insert various symbols and characters from different languages in our text?

- | | | | |
|--------------------|------------------|---------------|------------------|
| A. Archive Manager | B. R environment | C. Google Map | D. Character Map |
|--------------------|------------------|---------------|------------------|

Q-5: Which tool is used for statistical computing?

- | | | | |
|------------------|------------------|---------------|----------|
| A. Rational Plan | B. R environment | C. Google Map | D. Skype |
|------------------|------------------|---------------|----------|

Q-6: Which tool is used to find mean and median?

- | | | | |
|---------------|----------|------------------|------------------|
| A. Google Map | B. Skype | C. R environment | D. Rational Plan |
|---------------|----------|------------------|------------------|

Q-7: Which tool is used to draw bar graphs and histogram?

- | | | | |
|------------------|---------------|----------|------------------|
| A. R environment | B. Google Map | C. Skype | D. Rational Plan |
|------------------|---------------|----------|------------------|

Q-8: What is the technique to place a whole directory structure into a single file for convenience called as?

- | | | | |
|------------|------------|---------------|-------------------|
| A. Article | B. Archive | C. Repetition | D. Transformation |
|------------|------------|---------------|-------------------|

Q-9: Which symbol is used to mark the beginning of the table?

- | | | | |
|----------------|-------------|--------------|--------------|
| A. \$ (Dollar) | B. # (Hash) | C. ^ (Caret) | D. ~ (Tilde) |
|----------------|-------------|--------------|--------------|

Q-10: Which symbol is used to mark the end of the table?

- | | | | |
|--------------|----------------|--------------|-------------|
| A. ~ (Tilde) | B. \$ (Dollar) | C. ^ (Caret) | D. # (Hash) |
|--------------|----------------|--------------|-------------|

Q-11: Which Linux software is used for managing archive files?

- | | | | |
|----------|--------|------------|--------------------|
| A. Gedit | B. VLC | C. Encoder | D. Archive Manager |
|----------|--------|------------|--------------------|

13.2 Archive Manager

Q-12: Which of the following does permit to combine many files or an entire directory tree into a single file?

- | | | | |
|--------------------|-------------------|---------------|-----------|
| A. Archive Manager | B. Root directory | C. VLC Player | D. Winzip |
|--------------------|-------------------|---------------|-----------|

Q-13: Which is the most common archive format on Linux systems?

- | | | | |
|--------|---------|---------|---------|
| A. Tar | B. .mp3 | C. .zip | D. .txt |
|--------|---------|---------|---------|

Q-14: What is the Fullform of tar?

- | | | | |
|-----------|-----------------|------------|--------------------|
| A. Target | B. Tap archiver | C. GNU zip | D. Target archiver |
|-----------|-----------------|------------|--------------------|

Q-15: Which of the following supports multiple compression algorithms and compressed file formats?

- | | | | |
|---------|--------|--------|-------------------------|
| A. Java | B. JAR | C. ZIP | D. Tape archiver format |
|---------|--------|--------|-------------------------|

Q-16: Which of the following are the most common compressed file formats?

- | | | | |
|----------------|-------------------|----------------|----------------|
| A. JAR and TAR | B. Tar.gz and Zip | C. VLC and Tar | D. Zip and VLC |
|----------------|-------------------|----------------|----------------|

Q-17: Which command is used to compress the uncompressed Tar file into Zip file format?

- | | | | |
|--------|-------------|---------|----------|
| A. Zip | B. Compress | C. gzip | D. Paste |
|--------|-------------|---------|----------|

Q-18: Which extension is the extension of compressed file after gzip command?

- | | | | |
|-----------|---------|------------|------------|
| A. tar.gz | B. .zip | C. tar.zip | D. tar.jar |
|-----------|---------|------------|------------|

Q-19: What is the file with extension tar.gz called as?

- | | | | |
|-------------|-------------|--------------|----------------|
| A. Tar ball | B. Jar ball | C. Java file | D. Target file |
|-------------|-------------|--------------|----------------|

Q-20: Which of the following is a very common format for distributing software or bundles of files on the Linux platform?

- | | | | |
|--------|--------|--------|-------------|
| A. JAR | B. BMP | C. Zip | D. Tar ball |
|--------|--------|--------|-------------|

Q-21: Which file format is used by different applications under different names?

- | | | | |
|--------|--------|--------|---------|
| A. JAR | B. Zip | C. BMP | D. HTML |
|--------|--------|--------|---------|

Q-22: Which files in Java use the zip compression?

- | | | | |
|--------|-----------|--------|---------|
| A. Tar | B. Tar.gz | C. JAR | D. HTML |
|--------|-----------|--------|---------|

Q-23: Which part of the filename is used by Archive Manager to identify the file format when opening an archive and to select the file format when creating a new archive?

- | | | | |
|--------------|---------|-----------------------|-----------------|
| A. Extension | B. Name | C. Name and Extension | D. Size of file |
|--------------|---------|-----------------------|-----------------|

Q-24: Which of the following is used to explore the contents of archives?

- | | | | |
|---------|--------------------|---------|---------------|
| A. Java | B. Archive Manager | C. HTML | D. VLC player |
|---------|--------------------|---------|---------------|

Q-25: Which of the following operations are possible using Archive Manager?

- | | | | |
|------------------------------|-----------------------------|------------------------------|-----------------|
| A. Extract file from archive | B. Add new files to archive | C. Delete files from archive | D. All A, B & C |
|------------------------------|-----------------------------|------------------------------|-----------------|

Q-26: Which menu option is used to create a new archive?

- | | |
|--------------------------------|-------------------------|
| A. Context menu -> Compress... | B. File -> New |
| C. View -> New file | D. Insert -> Compass... |

Q-27: Which button in the toolbar can be used to go to the parent directory?

- | | | | |
|---------|-------|---------|------------|
| A. Back | B. Up | C. Down | D. Forward |
|---------|-------|---------|------------|

Q-28: Which button in the toolbar can be used to go to the previous directory?

- | | | | |
|-------|---------|------------|---------|
| A. Up | B. Down | C. Forward | D. Back |
|-------|---------|------------|---------|

Q-29: Which kinds of facilities are provided by Archive Manager?

- | | |
|--|--|
| A. Create and use archive files for backup | B. For transfer via an external storage device |
| C. For transfer via network | D. All A, B & C |

13.3 The VLC Media Player

Q-30: VLC stands for...

- | | |
|-----------------------|-----------------------|
| A. Video LAN Creation | B. Video LAN Client |
| C. Video Light Client | D. Video LED Creation |

Q-31: Which of the following media player is extremely popular because of its versatility and features?

- | | | | |
|-------------------------|-----------------|--------|-------------|
| A. Windows Media Player | B. Music Player | C. VLC | D. R Player |
|-------------------------|-----------------|--------|-------------|

Q-32: Which software component can perform coding and decoding?

- | | | | |
|----------|----------|-----------|--------------|
| A. Codec | B. Modem | C. Router | D. Broadband |
|----------|----------|-----------|--------------|

Q-33: Which of the following can support all the major types of devices like web camera, monitor, microphones etc.?

- | | | | |
|---------------|-------------------------|-----------------|-----------|
| A. VLC player | B. Windows Media Player | C. Music Player | D. Router |
|---------------|-------------------------|-----------------|-----------|

Q-34: Which of the following can convert multimedia files from one format to another?

- | | | | |
|-----------------|---------------|----------|------------|
| A. Music Player | B. VLC player | C. Modem | D. Encoder |
|-----------------|---------------|----------|------------|

Q-35: Which player can send/receive audio/video files from another computer(s) over the network?

- | | | | |
|-----------------|-------------------|---------------|-------------|
| A. Video player | B. Video Recorder | C. VLC player | D. R player |
|-----------------|-------------------|---------------|-------------|

Q-36: Which menu option is used to start VLC player?

- | | |
|------------------------------------|----------------------------------|
| A. Accessories -> Sound & Video | B. Applications -> Sound & Video |
| C. Start -> Music -> Sound & Video | D. Action -> Sound & Video |

Q-37: Which option is used to open one or more files?

- | | |
|----------------------|----------------------------|
| A. Open -> File | B. Media -> Open File |
| C. Open -> Directory | D. Media -> Open Directory |

Q-38: Which option is used to open an entire directory?

- | | |
|----------------------------------|---------------------------------|
| A. Media -> Open Directory... | B. File -> Open Directory |
| C. Media -> Open Media Directory | D. File -> Open Media Directory |

Q-39: Which of the following is a list of media files (tracks) to be played?

- | | | | |
|---------------|---------------|-------------|---------------|
| A. Media list | B. Audio list | C. Playlist | D. Track list |
|---------------|---------------|-------------|---------------|

Q-40: Which menu option is used to open the playlist?

- | | | | |
|---------------------|--------------------|------------------------|---------------------|
| A. Open -> Playlist | B. New -> Playlist | C. Open -> My Playlist | D. View -> Playlist |
|---------------------|--------------------|------------------------|---------------------|

Q-41: Which menu option is used to save the playlist?

- | | |
|------------------|--------------------------------------|
| A. File -> Save | B. Media -> Save Playlist to File... |
| C. Media -> Save | D. Media -> Save Playlist |

Q-42: Which part of VLC player will show, how much of the current track has been played? OR Which bar of VLC media players shows, how much of the current track has been played and what is its total duration?

- A. Next button B. Play C. Two Parallel bars D. Progress Bar

Q-43: Which button will turn into a pause button, when the track is playing?

- A. Play B. Progress Bar C. Next D. Jump

Q-44: Which file format is common for playlists and supported by VLC?

- A. M3U B. Wav C. Mpeg D. Avi

Q-45: Which button is called 'play' button in VLC player?

- A. Left pointing triangle B. Two Parallel bars
C. Right arrow D. Right pointing triangle

Q-46: Which button will turn into pause button, when the track is playing?

- A. Left pointing triangle B. Left arrow C. Play D. Two Parallel bars

Q-47: Which buttons are used to jump to the previous and next track respectively?

- A. Left and right arrows B. Button with double arrow left and right
C. Two parallel bar D. Left and right triangles

Q-48: In which mode of screen the controls like play/pause, stop will be hidden?

- A. Restore B. Small C. Minimize D. Full screen

Q-49: Which menu option of VLC player is used to convert multimedia files from one format to another?

- A. File -> Convert B. Media -> Convert/Save C. Edit -> Convert D. Player -> Convert

Q-50: What should be provided while converting the file in VLC player?

- A. Name B. Save option C. Destination D. Track number

13.4 Google Map

Q-51: Which of the following is a free Internet – based service provided by Google, Inc.?

- A. VLC player B. Google Maps C. Skype D. R player

Q-52: Which of the following does allow anybody to edit the maps and identify landmarks, buildings etc?

- A. Google Maps B. R mapping C. R plotting D. Skype

Q-53: Which facility is used to obtain user's location with very high accuracy on a mobile phone?

- A. User's mobile number B. User's address C. GPS D. Google plotting

Q-54: Which is the default view of Google map?

- A. Satellite image view B. Image view C. Map view D. City view

Q-55: Which button should be clicked to switch to the satellite image view?

- A. Image view B. Satellite C. Zoom D. Scroll

Q-56: Which application is used by Government organizations and businesses to provide people information on how to reach their office?

- A. Google Map B. Online directory C. Online search D. Online Chatting

Q-57: Which application is also used to display bus routes, current location of running trains etc.?

- A. City website B. Online chatting C. Google Map D. Satellite view

Q-58: Which application is used to find nearest essential places like ATM centre, bank, restaurant, bus stops?

- A. Satellite phone B. Online chatting C. Google Map D. All A, B & C

OR

- A. Hotspot B. GSP C. GPS D. Wi-Fi

13.5 Character Map

Q-59: Which of the following program can be used to enter Unicode characters into any application?

- A. Keyboard B. Character map C. R Software D. Notepad

13.6 The R Software

Q-60: Which software is a free software environment for statistical computing?

- A. Character Map B. Tally C. R Software D. Excel

Q-61: Which of the following is a GNU project?

- A. Character Map B. Google Map C. VLC Player D. R Software

Q-62: Which software is widely used for statistical analysis?

- | | | | |
|---------------|----------|----------|---------|
| A. R Software | B. Tally | C. Excel | D. Calc |
|---------------|----------|----------|---------|

Q-63: What is owned by the R Software?

- | | | | |
|------------------|-----------------------|-----------------|-----------|
| A. Character set | B. Scripting language | C. Data centres | D. Graphs |
|------------------|-----------------------|-----------------|-----------|

Q-64: How many work environments are available in R environment?

- | | | | |
|--------|--------|----------|---------|
| A. One | B. Two | C. Three | D. Four |
|--------|--------|----------|---------|

Q-66: Which of the following are types of work environment of R software?

- | | |
|------------------------------|-------------------------------|
| A. Character set and Details | B. Command line and Graphical |
| C. Copy and Paste | D. Script and Map |

Q-67: Which graphic editor/s is/are needed to be installed to use R software in a GUI environment?

- | | | | |
|----------------|------------|---------------|-----------------|
| A. R Commander | B. RStudio | C. Both A & B | D. Command Line |
|----------------|------------|---------------|-----------------|

Q-68: From where can we install R Commander and RStudio?

- | | |
|--------------------------------------|-------------------------------------|
| A. File -> Install | B. Application -> Software installs |
| C. Accessories -> Installed software | D. Ubuntu Software Centre |

Q-69: What should be typed on the command prompt in terminal to invoke R scripts from terminal window?

- | | | | |
|--------------|------|----------------|-------------|
| A. R scripts | B. R | C. R commander | D. R Studio |
|--------------|------|----------------|-------------|

Q-70: Which symbol is used as the comment marker in R?

- | | | | |
|------|-------|------|------|
| A. # | B. \$ | C. ^ | D. ~ |
|------|-------|------|------|

Q-71: Which are the basic data types of R?

- | | | | |
|-----------|-----------|---------------|--------|
| A. Number | B. String | C. Both A & B | D. Int |
|-----------|-----------|---------------|--------|

Q-72: Which of the following may be enclosed in single quotes or double quotes?

- | | | | |
|---------------|------------|--------------|----------|
| A. Characters | B. Strings | C. Variables | D. Lists |
|---------------|------------|--------------|----------|

Q-73: Which lists are commonly used and referred to as vectors?

- | | | | |
|-------------------|--------------------|------------------|-----------------|
| A. Unordered list | B. Definition list | C. Bulleted list | D. Ordered list |
|-------------------|--------------------|------------------|-----------------|

Q-74: Which function is used to combine several numbers into a single list?

- A. List B. Combine C. Join D. C

Q-75: Which symbol does show the prompt of R?

- A. > B. \$ C. # D. Both B & C

Q-76: Which symbol is used as assignment operator in R?

- A. = B. ← C. → D. ==

Q-77: What will be the output, if following command sequence is given in R software?

> a ← 10 > a * b > b ← 30

- A. Error B. 10 C. 300 D. 40

Q-78: Which key is used to see value of variables or results of calculations?

- A. Space bar B. ← C. Alt + Enter D. Enter

Q-79: Which command is used for accessing the online help of R?

- A. Online help() B. R help() C. R.help() D. help()

Q-80: Which command is used for viewing some demonstrations?

- A. demo() B. R.demo() C. Demonstration() D. isDemo()

Q-81: Which command is used to open the online help in a browser?

- A. R.help() B. help() C. helpOnline() D. help.start()

Q-82: Which syntax is used to get help on a particular function?

- A. help() B. help(function name) C. R.help() D. help.start()

Q-83: Which function displays a list of all the variables we have defined?

- A. ls() B. list() C. R.list() D. listall()

Q-84: Which syntax is used to generate a series of consecutive numbers(range)?

- A. R.start():R.stop() B. R.begin():R.end() C. start:end D. start:stop

Q-85: Which basic statistical functions are available in R software?

- | | |
|-------------------------|---|
| A. Statistical() | B. min(list), max(list), mean(list), median(list) |
| C. help(), demo(), ls() | D. All A, B & C |

Q-86: Which of the following function in R software helps to find median?

- | | | | |
|---------------|--------------|-----------------|-----------------|
| A. mean(list) | B. med(list) | C. median(list) | D. list(median) |
|---------------|--------------|-----------------|-----------------|

13.7 Plotting in R

Q-87: Which function can be used to draw the plot with various arguments?

- | | | | |
|---------|-----------|--------------|------------|
| A. plot | B. R.plot | C. R.barplot | D. barplot |
|---------|-----------|--------------|------------|

Q-88: Which command is used to specify X-axis label?

- | | | | |
|---------|------------|----------------|----------------|
| A. xlab | B. x-label | C. x-axislabel | D. xplot-label |
|---------|------------|----------------|----------------|

Q-89: Which command is used to specify Y-axis label?

- | | | | |
|----------------|---------|------------|----------------|
| A. y-axislabel | B. ylab | C. y-label | D. yplot-label |
|----------------|---------|------------|----------------|

Q-90: Which command is used to specify the values to be displayed for the bars?

- | | | | |
|--------------|----------|------------|------------|
| A. names.arg | B. names | C. x-names | D. y-names |
|--------------|----------|------------|------------|

Q-91: Which command is used to specify main title of the plot?

- | | | | |
|----------|--------------|---------|---------------|
| A. title | B. maintitle | C. main | D. plot-title |
|----------|--------------|---------|---------------|

Q-92: Which command is used to specify the range of values to be plotted on the Y-axis?

- | | | | |
|------------|------------|-----------------|---------|
| A. y-limit | B. y-range | C. y-axis-limit | D. ylim |
|------------|------------|-----------------|---------|

Q-93: Which command is used to specify border color?

- | | | | |
|----------|----------------|-----------|-----------------|
| A. color | B. bordercolor | C. border | D. border-color |
|----------|----------------|-----------|-----------------|

Q-94: Which prompt is issued by R until we complete the command by pressing Enter key?

- | | | | |
|------|------|-------|------|
| A. > | B. + | C. \$ | D. # |
|------|------|-------|------|

Q-95: What is not available by default in R graph?

- | | | | |
|-----------|----------|----------|----------|
| A. Labels | B. Title | C. Grids | D. range |
|-----------|----------|----------|----------|

13.8 RationalPlan

Q-96: Which of the following helps us to complete the project as scheduled, on time and with budget?

- | | | | |
|---------|--------------|-----------|-----------|
| A. Plan | B. Resources | C. System | D. Layout |
|---------|--------------|-----------|-----------|

Q-97: Which open-source software is designed to assist project managers in preparing, maintaining and following a well-defined project plan?

- | | | | |
|---------|---------------|-----------------|----------|
| A. Plan | B. R software | C. RationalPlan | D. Skype |
|---------|---------------|-----------------|----------|

Q-98: Which software assists the project managers throughout the lifecycle of their project?

- | | | | |
|---------------|-----------------|----------|---------------|
| A. R software | B. RationalPlan | C. Skype | D. Google Map |
|---------------|-----------------|----------|---------------|

Q-99: How many desktop products are comprised by RationalPlan?

- | | | | |
|--------|--------|----------|---------|
| A. One | B. Two | C. Three | D. Four |
|--------|--------|----------|---------|

Q-100: Which of the following desktop products are included in RationalPlan?

- | | | | |
|------------------------|-----------------------|------------------------|-----------------|
| A. RationalPlan Single | B. RationalPlan Multi | C. RationalPlan Viewer | D. All A, B & C |
|------------------------|-----------------------|------------------------|-----------------|

Q-101: Which of the following allows us to manage independent projects that do not have common resources and has no interrelations between different projects?

- | | |
|------------------------|------------------------|
| A. RationalPlan Single | B. RationalPlan Multi |
| C. RationalPlan Viewer | D. RationalPlan Unique |

Q-102: Which of the following allows the manager to associate general project information like name, notes, links, assumptions, constraints or risks?

- | | |
|------------------------|-------------------------|
| A. RationalPlan Multi | B. RationalPlan Single |
| C. RationalPlan Viewer | D. RationalPlan Project |

Q-103: Which project tracking tools are provided by RationalPlan Single?

- | | |
|--|------------------------------------|
| A. Critical path | B. Mark completion value for tasks |
| C. Work and cost time phased information | D. All A, B & C |

Q-104: Which kind of task/s is/are possible with RationalPlan Single?

- | | |
|-------------------------------------|---|
| A. Generate a printable report | B. Import data from other project management tool |
| C. Export out data into other forms | D. All A, B & C |

Q-105: Which of the following allows us to manage projects that share company resources across projects?

- A. RationalPlan Single
- B. RationalPlan Multi
- C. RationalPlan Viewer
- D. RationalPlan Multiple

Q-106: Which project can calculate the data considering their assignments in all projects?

- A. RationalPlan Multi
- B. RationalPlan Viewer
- C. RationalPlan Single
- D. RationalPlan Multiple

Q-107: Which product allows links between tasks pertaining to different projects, analyses all projects data and create Portfolio view?

- A. RationalPlan Multiple
- B. RationalPlan Multi
- C. RationalPlan Viewer
- D. RationalPlan Single

Q-108: Which of the following can be used to open Microsoft Project Files?

- A. RationalPlan Single
- B. RationalPlan Multi
- C. RationalPlan Viewer
- D. RationalPlan Linux

Q-109: Which is the original file format of RationalPlan?

- A. .proj
- B. .xlp
- C. .xrp
- D. .projx

Q-110: Which of the following is an additional tool developed to share the project in its original file format?

- A. RationalPlan Viewer
- B. RationalPlan Single
- C. RationalPlan Multi
- D. RationalPlan Unique

Q-111: Which project is useful to anybody who needs to check and overview the project's evolution without making changes to the schedule and for resources to see their assignments?

- A. RationalPlan Viewer
- B. RationalPlan Multiple
- C. RationalPlan Multi
- D. RationalPlan Unique

Q-112: From which version of Ubuntu, the support of RationalPlan has been removed?

- A. Ubuntu 11.04
- B. Ubuntu 10.04
- C. Ubuntu 12.04
- D. Ubuntu 13.10

Q-113: For which version of Ubuntu, RationalPlan support is available?

- A. Ubuntu 13.04
- B. Ubuntu 10.10
- C. Ubuntu 12.04 and later versions
- D. Ubuntu 10.06

13.9 Skype

Q-114: Which software does allow us to make calls over the Internet using our computer?

- A. Yahoo Messenger B. Skype C. Google Talk D. RediffBol

Q-115: Which of the following service does allow users to communicate with peers using voice, video as well as text?

- A. Rediff Bol B. Google Talk C. Skype D. Yahoo Messnger

Q-116: What can be used to place phone call to recipients on the traditional telephone network?

- A. Google Talk B. Rediff Bol C. Yahoo Messenger D. Skype

Q-117: Which additional features are provided by Skype?

- A. File transfer B. Video conferencing
C. Both A & B D. Chatting and Downloading

Q-118: Which option is used to start Skype?

- A. Applications → Internet → Skype B. Accessories → Skype
C. Applications → Accessories → Skype D. File → New → Skype

Q-119: Which window will be opened if we are opening Skype for the first time?

- A. Sign in B. End User Licence Agreement C. Log in D. Create Account

Q-120: What is needed to use skype service?

- A. Headset B. Skype User Account C. Web Cam D. Speaker

Q-121: Which button should be clicked after entering Skype name and password details in the textbox of the window?

- A. Create account B. Log In C. Sign in D. Make account
