

Computer Studies, Chapter 5 – Introduction to M-Commerce

Exam Oriented MCQs, 5.1 Introduction

Q-1: What is the meaning of M-commerce?

- A. Multi-level commerce
- B. Multi-tasking commerce
- C. Mobile commerce
- D. Multi saving commerce

Q-2: Which of the following provides the user with the advantage of flexibility and ubiquity?

- A. E-commerce
- B. M-commerce
- C. L-commerce
- D. Traditional commerce

Q-3: Identify: The stock market services offered via mobile devices which is also becoming popular.

- A. Mobile Brokerage
- B. Mobile Banking
- C. M-Banking
- D. E-Commerce

5.2 Benefits of M-Commerce

Q-4: Which of the following is the integration of wireless networks accessed through handheld devices and Internet?

- A. E-Commerce
- B. L-Commerce
- C. Traditional Commerce
- D. M-Commerce

Q-5: Which of the following is benefit of M-Commerce?

- A. Limited bandwidth
- B. High cost of establishment
- C. Instant connectivity
- D. Limited memory

Q-6: Who provides convenience to the user, in just a few clicks on the mobile device?

- A. WWW
- B. M-commerce
- C. Online shopping
- D. Online discounts

5.3 Limitations of M-Commerce

Q-7: Which of the following is limitation of M-commerce?

- A. Conduct business 24*7
- B. Provides global search
- C. Limited storage capacity
- D. Timely information

OR

- A. Provides global reach
- B. Virtually can contact a user any time and any where
- C. Limited screen size
- D. Customized alerts can be easily received on the mobile screen

5.4 Applications of M-Commerce

Q-8: Which of the following is one of the most popular ways for companies to reach a large audience?

- A. L-Commerce
- B. E-Commerce
- C. Mobile Tracking
- D. Mobile Advertising

Q-9: Which is the major source of revenue for most of the portals?

- A. Advertising on Internet
- B. Mobile Ticketing
- C. Tourism
- D. Mobile Auction

Q-10: What is the full form of IRCTC?

- A. Indian Rail Category and Transform Corporation
- B. Indian Railway Catering and Tourism Corporation
- C. Intelligent Railway Category and Transfer Corporation
- D. Indian Railway Category and Tours Class

Q-11: For Union Bank user, which of the following application should be downloaded from the Android market?

- A. Unionbankonline
- B. umobile
- C. unionBonline
- D. UBmobile

Q-12: Which of the following is an important piece of information used during mobile commerce transaction?

- A. Location of the mobile phone user
- B. Modem
- C. Router
- D. Broadband

Q-13: Which of the following location based services are provided by vendors to the mobile user?

- A. Local maps
- B. People tracking and monitoring
- C. Both A & B
- D. Discount coupons

Q-14: Which of the following services are location based services?

- A. Local maps
- B. Local weather
- C. People tracking and monitoring
- D. All A, B & C

5.5 L-Commerce

Q-15: Which are the wireless handheld devices used for the growth of M-commerce?

- A. PDAs
- B. Cellular phones
- C. Pocket PCs
- D. All A, B & C

Q-16: Identify: The use of technologies which provide the location information for business purpose.

- A. L-commerce
- B. M-commerce
- C. E-commerce
- D. All A, B & C

Q-17: Which are the signal sources of technology?

- A. Cellular B. GPS C. Wi-Fi ~~D. All A, B & C~~

Q-18: Signals of which devices are used in location based services?

- A. GPS B. Cellular C. Wi-Fi ~~D. All A, B & C~~

Q-19: Which of the following is the most accurate in determining a mobile device's position?

- A. Wi-Fi ~~B. GPS~~ C. Cellular D. Satellite

Q-20: How many satellites are used by mobile devices to locate a point?

- A. One B. Two ~~C. Three~~ D. Four

Q-21: How many satellites are used to create an intersecting point which can locate the device within 500 meters?

- ~~A. 3~~ B. 4 C. 5 D. 6

Q-22: Which range is used by satellites to create an intersecting point to locate the device?

- A. 100 meters B. 200 meters ~~C. 500 meters~~ D. 1000 meters

Q-23: Which of the following service is used in plotting route from one place to another?

- A. Tracking B. Emergency ~~C. Navigation~~ D. Mapping

Q-24: Which location based services are used to track assets, locating friends in a geographical location?

- A. Emergency B. Advertising promotion C. Mapping ~~D. Tracking services~~

Q-25: Which location based services are used for targeted ads, promotional messages, customer identification in a store?

- A. Tracking services B. Navigation
C. Emergency ~~D. Advertising promotion~~

5.6 Security issues in E-commerce & M-commerce

Q-26: Which of the following is a public network system that consists of thousands of private computer networks connected together?

- A. Location ~~B. Internet~~ C. Mapping D. Navigation

Q-27: How many important security aspects should meet by the E-commerce/M-commerce transaction?

- A. One B. Two C. Three ~~D. Four~~

Q-28: Which of the following is not an important aspect of E-commerce/M-commerce security?

- A. Confidentiality B. Integrity C. Copyright D. Nonrepudiation

Q-29: Which security aspect is achieved by using cryptography?

- A. Confidentiality B. Integrity C. Authorization D. Non-repudiation

Q-30: Which security aspect helps in protecting the confidential data like credit card number? OR

Q-30: Which of the following security aspect of E-commerce/M-commerce protects the data from private attacks?

- A. Confidentiality B. Authorization C. Integrity D. Non-repudiation

Q-31: In which type of security aspect, if the message is alerted in between the transition, it should be detected?

- A. Confidentiality B. Integrity C. Authorization D. Non-repudiation

Q-32: Which security aspect removes the problem of modifying the order quantity?

- A. Non-repudiation B. Confidentiality C. Integrity D. Authorization

Q-33: Which of the following is one of the ways to achieve authentication?

- A. Confidentiality B. Authorization C. Integrity D. Non-repudiation

Q-34: Which security aspect prevents sender or receiver from denying a transmitted message when in fact they did send it?

- A. Authorization B. Non-repudiation C. Integrity D. Confidentiality

Q-35: What is the full form of TTP?

- A. Trusted Third Party B. Type Tutor Practice
C. Trusted Transmission Party D. Typing Transmission Party

5.7 Internet Security Threats

Q-36: Which are the most common threats faced on internet?

- A. Sniffing B. Denial of Service Attack C. Spoofing D. All A, B & C

Q-37: Which of the following causes damage to a computer or system?

- A. Sniffer B. Cyber Vandalism C. Spoofing D. Malicious code

Q-38: Which of the following can either activate itself or be like a virus requiring a user to perform an misleading action?

- A. Sniffing ~~B. Malicious code~~ C. Spoofing D. Denial of service

Q-39: Which program can read e-mail messages, user login, password and credit card numbers? **OR**

Q-39: Which is a program that uses internet to record information that passes through a computer or router in transit from sender to receiver?

- A. Malicious code ~~B. Sniffing~~
C. Cyber Vandalism D. Denial of Service attack

Q-40: What is the full form of DoS?

- A. Denial-of-Service B. Denial-of-Security
C. Denial-of-Scanning D. Denial-of-Security

Q-41: Which of the following is an example of integrity violation?

- A. Denial-of-Service B. Sniffing C. Spoofing ~~D. Cyber Vandalism~~

Q-42: Which of the following is the electronic equivalent of destroying property or placing graffiti on someone's photograph?

- A. Sniffing B. Denial of service attack ~~C. Cyber Vandalism~~ D. Malicious code

Q-43: What is the other name of Spoofing?

- A. Malicious code B. Masquerading C. Sniffing D. Cyber Vandalism

Q-44: Which is a technique where the attacker tries to assume the identity of another person or system for transacting with victim site?

- A. Sniffing B. Malicious code C. Cyber Vandalism ~~D. Spoofing~~

5.8 Security Measures

Q-45: Which are the security measures to prevent the various security threats?

- A. Cryptography B. Digital Certificate C. Antivirus ~~D. All A, B & C~~

Q-46: Which system can easily be targeted by malicious code within a short span of time of Internet?

- A. Local B. System within network
C. System without antivirus D. System without mouse

Q-47: Which of the following is the most common way to attack any system?

- A. Through Biological virus
- B. Through attachment in email
- C. Through firewall
- D. Through Cryptography

Q-48: Infection can also be spread through ...

- A. Internet downloads
- B. Digital signature
- C. Firewall
- D. Cryptography

Q-49: Which of the following is critical to be installed and kept updated regularly on the computer?

- A. Games
- B. Antivirus software
- C. Email attachments
- D. Cryptography

Q-50: Which of the following is the most commonly used network protection barrier between the company's network and the outside world?

- A. Digital signature
- B. Antivirus software
- C. Digital signature
- D. Cryptography

Q-51: Whose goal is to keep intruders away from the company's E-commerce infrastructure?

- A. Antivirus software
- B. Firewall
- C. Digital signature
- D. Cryptography

Q-52: Which of the following ensures that the company's crucial data is kept safe and not accessed by the intruders?

- A. Antivirus software
- B. Firewall
- C. Digital signature
- D. Cryptography

Q-53: A firewall protects the local network against...

- A. Email services which create problems
- B. Block the traffic from outside world to local network
- C. Undesirable material like photos, videos
- D. All A, B & C

Q-54: Which of the following is used for proving our identity in electronic transactions?

- A. Digital certificates
- B. Cryptography
- C. SSL
- D. Antivirus software

Q-55: Which of the following is issued by a trusted third party to establish the identity of the holder?

- A. Antivirus software
- B. Cryptography
- C. SSL
- D. Digital certificate

Q-56: What is called the third party who issues certificates?

- A. Bank of Merchant
- B. Government Authority
- C. Certification Authority
- D. None of these

Q-57: What is the full form of CA?

- A. Certified Antivirus B. Central Authority ~~C. Certification Authority~~ D. Central Application

Q-58: Which of the following information is available in Digital Certificate?

- A. Holder's name, serial number, expiration date B. Copy of certificate holder's public key
C. Digital signatures ~~D. All A, B & C~~

Q-59: Which of the following is the transformation of plain text into unreadable or cipher text using encryption algorithm?

- A. Digital certificate ~~B. Cryptography~~ C. Digital Signature D. SSL

Q-60: What is used to encrypt or decrypt a message?

- A. SSL B. Encryption ~~C. Secret key~~ D. Firewall

Q-61: Which option is used to ensure privacy by keeping the information hidden from anyone on the Internet except the receiver of the message?

- A. Digital certificate B. Certification Authority C. Firewall ~~D. Secret key~~

Q-62: What is used to protect data in transit?

- ~~A. Encryption~~ B. Decryption C. Firewall D. SSL

Q-63: What is needed when the encrypted message is received by the receiver?

- A. Digital Certificate ~~B. Decryption~~ C. CA D. SSL

Q-64: What should be done on message just before they are sent to the Internet or network?

- A. SSL B. Digital Certification ~~C. Encryption~~ D. Authorization

5.9 Secure Socket Layer (SSL)

Q-65: What is the full form of SSL?

- A. Security Socker Layer B. Section Secure Layer
C. Secure Section Location ~~D. Secure Socket Layer~~

Q-66: Which of the following is used for securing web transactions on the Internet?

- ~~A. SSL~~ B. Firewall C. Copyright D. VeriSign

Q-67: What is provided by SSL to ensure customer that the customer knows that they are communicating with a valid owner?

- A. Confidentiality
- B. Authentication of the merchant
- C. Non-repudiation
- D. Integrity

Q-68: What is used to identify whether the site is secured?

- A. SSL
- B. Security Logo
- C. Non-repudiation
- D. None of these

5.10 Securing Intellectual Property

Q-69: Which of the following is included in the intellectual property?

- A. Softwares
- B. Music
- C. Copyrights
- D. All A, B & C

Q-70: On which of the following, Copyrights are applicable?

- A. Software programs
- B. Books
- C. Articles
- D. All A, B & C

Q-71: Which option can protect intellectual property in its various forms and cannot be used freely?

- A. Trademark
- B. Copyright law
- C. Domain name dispute
- D. Digital watermarking

Q-72: What is used by an individual or a company to distinguish a product or service from that of others in the market?

- A. Trademark
- B. Digital signature
- C. Copyright
- D. Domain name

Q-73: What is included in Trademark?

- A. Specific logo, Mark
- B. Word, Symbol
- C. Design, Phrase, Image
- D. All A, B & C

Q-74: Later on domain names were sold to concerned company at a very high price, this is known as ...

- A. Cyber squatting
- B. Typography
- C. Steganography
- D. Watermarking

5.11 Protecting Intellectual Property

Q-75: Which of the following is a method to protect intellectual property?

- A. SSL
- B. Steganography
- C. Firewall
- D. Copyright

Q-76: Which of the following allows hiding information in a totally invisible manner?

- A. Trademark
- B. Copyright
- C. Digital watermarking
- D. SSL

Q-77: Which of the following may be useful to set up controlled audio distribution and to provide efficient means for copyright protection?

- A. Steganography ~~B. Digital watermarking~~ C. Trademark D. Domain name

Q-78: What is used for certification and authentication in the field of data security?

- A. ~~Watermark~~ B. Copyright C. Trademark D. Steganography

Q-79: Which of the following can link information on the documents?

- A. Copyright B. Trademark
C. Steganography ~~D. Digital watermarking~~

5.12 Payment in E-commerce/ M-commerce

Q-80: Which is one of the most important aspects of E-Commerce as well as M-Commerce?

- A. Digital watermarking ~~B. Payment~~
C. Copyright D. Trademarking

5.13 Credit Card

Q-81: Which is one of the most popular and widely accepted methods of payment on Internet?

- A. Debit card B. Smart card ~~C. Credit card~~ D. PAN card

Q-82: Which of the following provide the credit cards of the financial institutions which are established and reputed in the services of credit card business?

- A. Billing company ~~B. Issuing banks~~
C. Master cards D. Payment gateways **OR**

From the following which bank issues, the credit card and guarantees the payment to the merchant?

- A. Popular ~~B. Issuing banks~~ C. Acquiring bank D. Both A & C

Q-83: What is the name of bank, in which merchant needs to open a merchant account for accepting payments on websites through credit card?

- A. Issuing bank B. Bank of cards ~~C. Acquiring bank~~ D. None of these

Q-84: Authorization is the process of...

- A. Verifying whether the card is active
B. The credit card limits are available to make purchase
C. Verifying the other details of the customer like billing information.
~~D. All A, B & C~~

Q-85: Which of the following are widely accepted by merchants and provide assurance to the customers as well as merchant?

- A. Debit cards ~~B. Credit cards~~ C. Payment gateways D. All A, B & C

Q-86: In credit card transaction how many parties are involved?

- A. ~~Four~~ B. Five C. Six D. Seven

Q-87: Which of the following is financial institution which establishes the account with the merchant, validates the credit card information of the customer?

- A. ~~Acquiring bank~~ B. Issuing bank C. Payment gateways D. Processors

Q-88: Which of the following services are provided by the third parties which connects networks of all the parties involved and enables to perform authorization and payment in secured manner?

- A. Processors ~~B. Payment Gateways~~ C. Issuing bank D. Acquiring bank

Q-89: Which of the following is an example of Payment gateway?

- A. ~~PayPal~~ B. IOB C. BOB D. Aryan II

Q-90: Which are the data centres which perform the credit card transactions and settle funds to the merchant?

- A. Payment gateways ~~B. Processors~~ C. Acquiring bank D. Issuing bank

Q-91: Which processes are performed during online payment through credit card on Internet?

- A. Authorization B. Settlement
C. ~~Both A & B~~ D. Payment gateways

Q-92: Which of the following security system is used by major credit card companies to make online transaction secure?

- A. PayPal B. Payment gateways ~~C. SET~~ D. SSL

Q-93: SET means...

- A. Section Electronic Transaction B. Secure Electrical Transmission
C. Secure Electronic Transmission ~~D. Secure Electronic Transfer~~

5.14 Debit Card

Q-94: Which of the following is a kind of payment card that transfers fund directly from the consumer's bank account to the merchant?

- A. Credit card B. Smart card ~~C. Debit card~~ D. PAN card

5.15 Smart Card

Q-95: Which of the following can store information in encrypted form?

- A. Debit card B. Credit card ~~C. Smart card~~ D. PAN card

Q-96: What is required to read information or add data to it?

- A. Computer B. Internet
C. Modem ~~D. Smart card reader~~

5.16 Net Banking

Q-97: Which option does not involve any type of card?

- A. Credit card ~~B. Net banking~~ C. Debit card D. Charge card

Q-98: Which of the following service customer can not avail with the help of online banking?

- A. Check account balance ~~B. Final status of transaction~~
C. Cash withdraw or deposit D. transfer the money from one account to other

5.17 Electronic Fund Transfer

Q-99: What is the full form of EFT?

- A. Electronic Finance Transaction B. Electronic Funds Transaction
C. ~~Electronic Funds Transfer~~ D. Electronic Finance Transfer

Q-100: Which of the following means transferring money from one bank account to another electronically?

- A. SSL ~~B. EFT~~ C. CA D. E-cash

Q-101: Which of the following is safe, secure, efficient, and less expensive than paper cheque payments and collections?

- A. ~~Electronic Funds transfer~~ B. SSL C. Certification Authority D. DigiCash

5.18 E-Wallet

Q-102: Which of the following is an electronic card for making secure online payments towards a merchant?

- A. E-Cash B. E-Finance ~~C. E-Wallet~~ D. E-Currency

Q-103: Which of the following works just like a credit or a debit card?

- A. E-Finance ~~B. E-Wallet~~ C. E-Currency D. DigiCash

Q-104: With which payment method, the customer is not required to provide the credit/debit card number?

- A. Credit card B. Debit card C. Both A & B ~~D. E-wallet~~

5.19 RuPay

Q-105: Which two terms are coined in the term RuPay?

- A. Rupee, Paisa ~~B. Rupee, Payment~~ C. Rupee, Permanent D. Ruled Payment

Q-106: Who has launched a new card payment mechanism RuPay?

- A. SSL B. CA C. EFT ~~D. NPCI~~

Q-107: What is the full form of NPCI?

- A. Nationalized Payments Corporation of India B. New Payments Currency of India
C. ~~National Payments Corporation of India~~ D. New Payable Currency of India

Q-108: Which of the following are the domestic alternative to the other payment cards? OR

Q-108: Which of the following is a new card payment mechanism launched by NPCI?

- ~~A. RuPay~~ B. Smart card C. Credit card D. Debit card

Q-109: Which of the following are the world leaders in card payments and used in all payment transactions?

- A. Credit cards B. Master card C. Visa card ~~D. Both B & C~~

Q-110: By using which cards all the transactions will be processed within India?

- A. Master card ~~B. RuPay card~~ C. Visa card D. All A, B, C

5.20: Cyber Security, It's Threats and Solutions (Cyber Bullying)

Q-111: Which two words are combined to create the term "Cyber Bullying"?

- A. Cyber and Bullet ~~B. Cyber and Bullying~~
C. Cyber and Bulletin D. Cyber-attack and Bullet

Q-112: Which of the following term generally refers to an aggressive and intentional act carried out by an individual or a group repeatedly against a person who cannot easily defend his or herself?

- ~~A. Bullying~~ B. Grooming C. Spam D. Phishing

Q-113: Which is a form of virtual harassment?

- A. Phishing B. Online Gaming C. Social Engineering ~~D. Cyber Bullying~~

Q-114: Which are the possible platforms for Cyber Bullying?

- A. Social Media B. Chat Rooms C. Gaming Platforms ~~D. All A, B, C~~

Q-115: "Post comments, photos or videos of a person, community or organization that are humiliating, embarrassing and nasty", is an example of which of the following term? **OR**

"Creating a fake webpage of a person, community or organization that are humiliating, embarrassing and nasty", is an example of which of the following term? **OR**

"Faking and identity online to ask for or post personal or fake information about someone", is an example of which of the following term?

- A. Malware B. Grooming ~~C. Cyber Bullying~~ D. Phishing

5.21 Online Gaming

Q-116: Which of the following can be played either partially or primarily through the Internet or any other available computer network?

- ~~A. Online Gaming~~ B. Cyber Grooming C. Spam Emails D. Cyber Bullying

5.22 Common threats while using an E-mail System

Q-117: What is used by an individual as well as an organization on almost daily basis today?

- A. Online Gaming ~~B. E-mail system~~ C. Social Engineering D. Cyber Bullying

Q-118: E-mail system is made up of which of the following components?

- A. Internet and Computers B. Google and Facebook
C. Google and Mozilla Firefox ~~D. Mail Clients and Mail Servers~~

Q-119: Which of the following work people can do using generic or special mail clients?

- ~~A. Read, Compose, Send and store their mail~~ B. Can chat with friends
C. Can do video conference with friends D. All A, B, C

Q-120: Who will send the emails using the underlying network infrastructure to a mail server?

- A. IT Experts ~~B. Mail client~~ C. Attackers D. Social Engineers

Q-121: Who will deliver, forward and store email messages?

- A. Mail client B. Social Engineers C. Online game players ~~D. Mail server~~

Q-122: What is widely used to communicate with external world or organization which may be trusted or untrusted?

- A. Online games ~~B. E-mail~~
C. Phishing D. Social Engineering

5.23 Malware

Q-123: What is the meaning of 'Malware'?

- A. Malicious Services B. Mail Software C. Mail Authorware D. Malicious Software

Q-124: Which of the following includes viruses, worms, trojan horses and spyware?

- A. Malware B. Authorware C. Spyware D. Hardware

Q-125: How the malwares are capable of creating a havoc on IT infrastructure?

- A. They can be used to control machine B. Access information and monitor activity
C. Log keys and perform other malicious action D. All A, B, C

Q-126: What is used by attackers to transfer malware from one place to another easily?

- A. Hardware B. CPU C. E-mail D. Keyboard

Q-127: What is the name of unsolicited e-mails, which may of commercial or non-commercial nature?

- A. Cyber Bullying B. Spam C. Phishing D. Social Engineering

Q-128: Which of the following term refers to the sending of unwanted commercial e-mail messages in large numbers to random people?

- A. Phishing B. Cyber Bullying C. Spamming D. Cyber Grooming

Q-129: Which messages have tendency to disrupt user productivity, it may also utilize excessive computer resource like disk space, memory or processor?

- A. Spam B. Online Games C. Short messages D. Long messages

5.24 Phishing

Q-130: Which of the following refers to the use of deceptive means usually in form of a fake website page or web link to trick individuals into responding to the e-mail and disclosing sensitive information?

- A. Cyber Grooming B. Cyber Bullying C. Phishing D. Spamming

5.25 Social Engineering

Q-131: Who are the attackers, who succumb to pressure humans?

- A. Hackers B. Social Engineers C. Software developers D. Malware

Q-132: Which is a common social engineering attack?

- A. E-mail spoofing B. Phishing C. Online Games D. Cyber Grooming
